JAKIT®

iPhone 4/4S

User Manual

Thank you for buying Jakit®, the unique smartphone accessory that combines hard case and retractable, noise-cancelling in-earphones. Please read this manual carefully and retain it for future use.

Box Contents:

- Jakit® (in two parts) complete with retractable in-ear phones and in-line microphone, for music and telephone calls

**Whilst we recommend that you hang on to your Jakit packaging; your packaging can be recycled. Please dispose of it responsibly!*

Jakit® Controls:

1 iPhone on/off switch
To switch your iPhone 4 ON and OFF. Gently hold down until your phone comes alive, or hold down to shut down your phone.

2 Jakit function button
When your earphones are activated this button becomes active. Click the button 'Once' to play or stop, 'Twice' to forward the song and 'three times' to reverse the song.

3 Retraction switch
Slide down and hold until the earphones are fully retracted.

4 Retractable earphones.
Gently grip the ear buds and pull to extend the earphones to activate the earphones switch the lever to the left.

5 Earphone on/off switch
Slide the switch to the left to use the earphones, to the right to switch them off.

GETTING STARTED

1 Remove the Jakit® from its packaging and separate the two pieces. Hold your iPhone with the jack socket to your left and screen facing you and carefully slide the larger of the two Jakit® sections over the top of your iPhone. Next, carefully slide the smaller of the two Jakit® sections on to the bottom of your smartphone so that both pieces meet and then clip them together.

2 With your Jakit attached, your iPhone is now ready for the full range of uses you purchased it for with the added functionality of the Jakit. Remember, because of its unique jack, you need never take your Jakit® off again…ever!

3 To switch the in-earphones on, simply slide the switch on the back of your Jakit® to the left.(Button marked 5 on diagram)

4 To switch the in-ear phones off, slide the switch on the back of your Jakit® to the right (Button marked 5 on diagram)

5 If you want to pair up with an in-vehicle Bluetooth system – or any other Bluetooth enabled device – ensure that the in-ear phones are switched to off.

6 Whilst holding the Jakit® with one hand, use the finger and thumb of the other hand to grip hold of both magnetically-connected in-ear phones. Slowly and steadily extend the cable to a comfortable length and it will lock automatically, then separate the in-earphones for use.

7 Before inserting the in-earphones into your ears, ensure that the volume level on your iPhone is not set too high. (Consistently high noise levels can lead to hearing loss)

8 When you have finished listening through your in-earphones, stick the backs of the in-earphones together -they will connect magnetically. Now you are ready to stash them.

9 Slide the small retraction button (Button No 3 on diagram), located on the right hand side of the Jakit® when the screen is facing you, and hold. The in-earphones will now automatically retract. Release the button when fully retracted and in the rest position. Guide the earphones to sit gently in the Jakit®.

DO NOT RETRACT WITHOUT HOLDING THE MAGNETICALLY CONNECTED EARPHONES, AND ALLOW YOUR HAND TO FOLLOW THE RETRACTION OF THE EARPHONES, ALL THE WAY TO THEIR RESTING POSITION IN THE TOP OF THE JAKIT CASE, OR YOU MAY CAUSE PERMANENT DAMAGE

FOR YOUR SAFETY

Unpacking and installation:

Unpack your Jakit® carefully. We recommend that you save the packaging in case you ever need to store your unit. To avoid damage, never place the unit near radiators, in front of heating vents, under direct sunlight, near or in water.

Water hazards:
To reduce the risk of fire or electric shock once fitted to your smartphone, please do not expose this unit to water hazards such as rain or moisture.

Choking hazards:
THIS PRODUCT IS NOT SUITABLE FOR CHILDREN UNDER 12 YEARS PLEASE KEEP OUT OF REACH OF BABIES AND SMALL CHILDREN DUE TO RISK OF SWALLOWING AND CHOKING ON SMALL PARTS

To avoid choking and possible suffocation, please ensure that the in-ear phones are not wrapped around your neck.

Hygiene:
To ensure the product remains clean and hazard free, the in-earphones should be cleaned on a regular basis using a propriety wipe or damp cloth. It is recommended that they are cleaned on a weekly basis.

Driving:
Make sure you aware of the laws of any State when using your Jakit® in-earphones. Please use your Jakit® both responsibly and carefully whilst walking/driving/cycling or undertaking any other activity. Be sure you are aware of your environment

Please use your Jakit® both responsibly and carefully whilst walking/driving/cycling or undertaking any other activity. Be sure you are aware of your environment.

SAFETY INFORMATION

Please read this user and product guide:
Reading this guide will ensure proper and safe use of your Jakit® earphones. Follow all operation guidelines and adhere to all safety warnings and cautions.

WARNING

Use Jakit® earphones responsibly. Exposure to excessively loud noise can cause Noise Induced Hearing Loss (NIHL). Sound is measured in units called decibels (dB). Here is a guideline from the Consumer Electronics Association:

Noise Level	Sound	Noise Level	Sound
140 dB	Firecrackers	**80 dB**	Alarm Clock
130 dB	Jackhammer	**70 dB**	Vacuum
120 dB	Jet Takeoff	**60 dB**	Normal Talking
110 dB	Rock Concert	**50 dB**	Rainfall
100 dB	Chain Saw	**40 dB**	Quiet Room
90 dB	Motorcycle	**30 dB**	Whisper

Jakit® earphones have a maximum output of 108dB. With the recommended prolonged output for adults at 90dB (up to 8hrs) and for children at 85dB they never have to be turned up to the maximum.

ADDITIONAL INFORMATION ABOUT PREVENTING HEARING DAMAGE MAY BE FOUND FROM:

The Consumer Electronics Association:
http://www.ce.org

Environmental Protection Agency:
http://epa.gov

World Health Organization:
http://www.who.int

- Ensure that the volume on your Jakit® earphones has been set to a safe and comfortable level.
- Putting on your earphones and turning on at full volume may cause damage to your hearing.

CAUTION

- Keep the Jakit® out of reach of small children. The Jakit® is not a toy and could be harmful to small children.
- DO NOT operate any motor vehicle or heavy machinery while listening to or wearing your Jakit® earphones. Doing so is not only dangerous to you and others but illegal in many states.
- Listening or wearing earphones reduces your ability to hear sounds around you such as emergency vehicle sirens or the horn from another motorist.
- It is not recommended to use earphones when cycling, running or walking in heavy traffic areas, where your full attention is necessary for your safety.
- Always use your Jakit® earphones responsibly in every situation!

SAFETY INSTRUCTIONS

- Read all instructions before using your Jakit® earphones.
- Always keep the instructions for future reference.
- Adhere to all warnings, cautions and suggestions in this user and product guide.
- Keep your headphones dry and prevent exposure to moisture or water.
